A. Report from the Director

Tropenbos International

Tropenbos International (TBI) is a Dutch foundation established in 1988. The foundation's mission is to improve the governance and management of tropical forests for the benefit of people, conservation and sustainable development.

To advance our mission the foundation implements programmes and projects that are financially supported by the Dutch Ministry of Foreign Affairs, the Ministry of Agriculture, Nature and Food quality, the European Union and multi- and bilateral donors.

In 2016 TBI transformed from an internationally operating organisation with offices located in 6 tropical developing countries and one supporting office in the Netherlands, into a network organization with a secretariat in the Netherlands and 6 autonomous organizations.

In 2020 TBI worked in the following countries with 6 network partners and 6 non-network partners: Bolivia, Colombia, DR Congo, Ethiopia, Ghana, Indonesia, Ivory Coast, Liberia, Suriname, Uganda, Philippines and Vietnam.

Key developments in 2020

In 2020 TBI implemented 4 multi-country programmes and two projects. TBI's main programme in terms of budget and number of partners/countries has been the *Forested landscapes for equity* programme, a strategic partnership with IUCN NL and Milieudefensie, hereafter referred to as the Green Livelihoods Alliance (GLA). The second largest programme in terms of budget, partners and countries was the Working landscape programme (WL). This programme worked in 6 countries where our network members are located, complemented with Ethiopia and Bolivia. Both of these programmes are financial supported by the Dutch Ministry of Foreign Affairs.

Our third largest programme in 2020 was a programme that aims to strengthen the contribution of non-state actors in three West African countries being Ghana, Liberia and Ivory Coast in public consultations on FLEGT and REDD+. This EU NSA programme is a four year programme funded by the EU. The fourth largest programme is the Mobilizing More 4 Climate programme, a programme that aims to build business cases for the sustainable and climate resilient management of land and natural resources. This programme is implemented by IUCN NL, WNF and TBI and led by the first.

Finally, TBI provides support to the Dutch Ministry of Agriculture, Nature and Food quality on issues relevant for the international policy agenda for forests and TBI participated in CGIAR's research programme *Forest Trees and Agroforestry* (FTA) together with four CGIAR centres and four non-centres.

Turnover of programmes and projects

Two of the above mentioned programmes: The five year GLA programme came to an end in 2020 and the four year EU funded NSA programme will end per 15th of January 2021.

At the same time, TBI was successful with a proposal for a second phase of the GLA programme, this time with more partners, including 3 alliance members from the global south. This successor to the GLA will start on the 1st of January 2021.

In March 2021, the Postal Code Lottery further selected a proposal submitted in September 2020 for the development of a fund to support small and medium sized enterprises with implementing sustainable and climate resilient forms of land and forest use. This programme will start mid-2021 and will run for 3 years.

Budget for indirect costs and institutional activities of the foundation.

In 2020, the six programmes and projects mentioned above generated a budget for the indirect costs of its programmes/projects and activities carried out to strengthen and govern the network of Tropenbos International. This budget is calculated on the basis of registered staff time spend on these programmes.

Ede, July 2021

René Boot
Director

B. Official registration/identity of the organization

Name: Tropenbos International

Address: Horaplantsoen 12

Based in: 6717 LT Ede, The Netherlands

Type of organization: Foundation

Director: dr. R.G.A. Boot

Postal address: Horaplantsoen 12, 6717 LT Ede

Registration Chamber of Commerce: 41155305 - K.v.K. Centraal Gelderland

Board members	Name	Country of residence
Chairman	E. Huizing	The Netherlands
Secretary/treasurer	S. Bhattacharya	The Netherlands
Member	Dr. M.M. Goote	The Netherlands

The day to day authority and management is delegated to the Director of the Foundation.
Day to day management of the foundation is also delegated by the Board to the Director.

C. Accounting principles.

This financial annual report is prepared according the following accounting principles:

General

All expenditures and receipts are in the framework of the programme for 2020 as approved by the Board of Tropenbos International.

Used currency in this annual report is Euro (€); expenditures and receipts of other currencies are changed to € at an average rate of 2020. The assets and liabilities are recalculated at the rate of December 31, 2020.

Agreements related to the DGIS-GLA, DGIS-Working Landscapes and DGIS-MoMo4C programmes are received covering various periods.

The profit and loss account is presented in accordance with the model of the General Board approved multi annual budget. The multi annual budget was also approved by DGIS.

Assets and liabilities

Assets and liabilities in the balance sheet are valued at nominal value. No capitalization of investments (fixed assets) is done; purchase of investments (durable goods) are charged directly to the profit and loss account. Reason for this is ownership of investments (durable goods) is transferred directly after purchase to the local programme and remains not at TBI.

The annual accounts include accrued project expenditures and income. In case cumulative receipts exceed expenditures incurred on projects, that will be compensated by a third party, the excess funds are recognised as liabilities. In case expenditures, that will be compensated by a third party exceed cumulative receipts the surpluses are recognised as assets.

Included in the current liabilities is a reservation for a payoff for the personnel if labour contracts ends.

Project obligations

A project obligation is recognised if the following applies:

- The organisation has a legal or constructive obligation arising from a past event and
- The amount can be estimated reliably and
- It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Project obligations are stated at the nominal value of the expenditures that are expected to be required to settle the liabilities and losses. All project obligations are evaluated annually by management. Releases and utilisation of the project obligations are accounted for as “provisions and reservations” under the category “DGIS activities” in revenue.

Commitments

A commitment is recognised if the following applies:

- The organisation has entered in to an unconditional commitment with a third party and
- The commitment results from a contract signed during the financial year

Commitments are stated at the nominal value of the expenditures that are expected to be required to settle the commitments. All commitments have a maximum duration of 12 months.

Release of existing commitments, if any, is accounted for as “release of commitments” under the category “DGIS activities” in revenue.

Profit and Loss Accounts

The budget figures as approved in the General Board meeting have been presented in the profit and loss accounts for reference.

The revenues are accounted for in the period in which the activities resulting in eligible expenditures have occurred.

The expenditures are accounted for in the period in which they are eligible for reimbursement by the donor and presented per project.

The project expenditures consists of:

- costs incurred by external parties and charged to TBI (allocated to the projects)
- eligible direct project costs incurred by TBI (allocated to the projects)
- a coverage of indirect costs of TBI in accordance with the project agreements with donors.

External activities

External activities are projects not included in any of the DGIS agreements between TBI and DGIS and these projects are financed by third parties. Expenditures as well as receipts of these projects are justified separately as “External funded activities” and “External generated income”.

Salaries

The profit and loss account include reservations for the holiday allowance of the Ede office personnel for June until December 2020.

Director

OTHER INFORMATION

In the statutes of the foundation is in article 12 sub 5 arranged how to handle with a credit balance in case of a dissolution of the Foundation. The literal tekst: “The Board shall determine the appropriation of the credit balance as far as possible in accordance with the object of the foundation.”

About the annual balance (positive or negative) of the Foundation no regulations are included in the statutes. The annual deficit automatically will be added or reduced from the general reservations of the programme unless the Board takes another decision.
